About

Welcome to Plan-it, your personal AI-powered floor plan generator! This app is designed to help you create custom floor plans effortlessly. Whether you're a student, homeowner, architect, or interior designer, Plan-it makes it easy to turn your ideas into a structured, visual blueprint.

With just a few inputs like the area, wall size, number & size of rooms, and layout preferences, our AI engine generates a professional floor plan tailored to your needs in seconds. Say goodbye to complex design tools—Plan-it offers a simple, user-friendly interface that brings your vision to life with accuracy and ease.

Start designing smarter, faster, and better with Plan-it!
